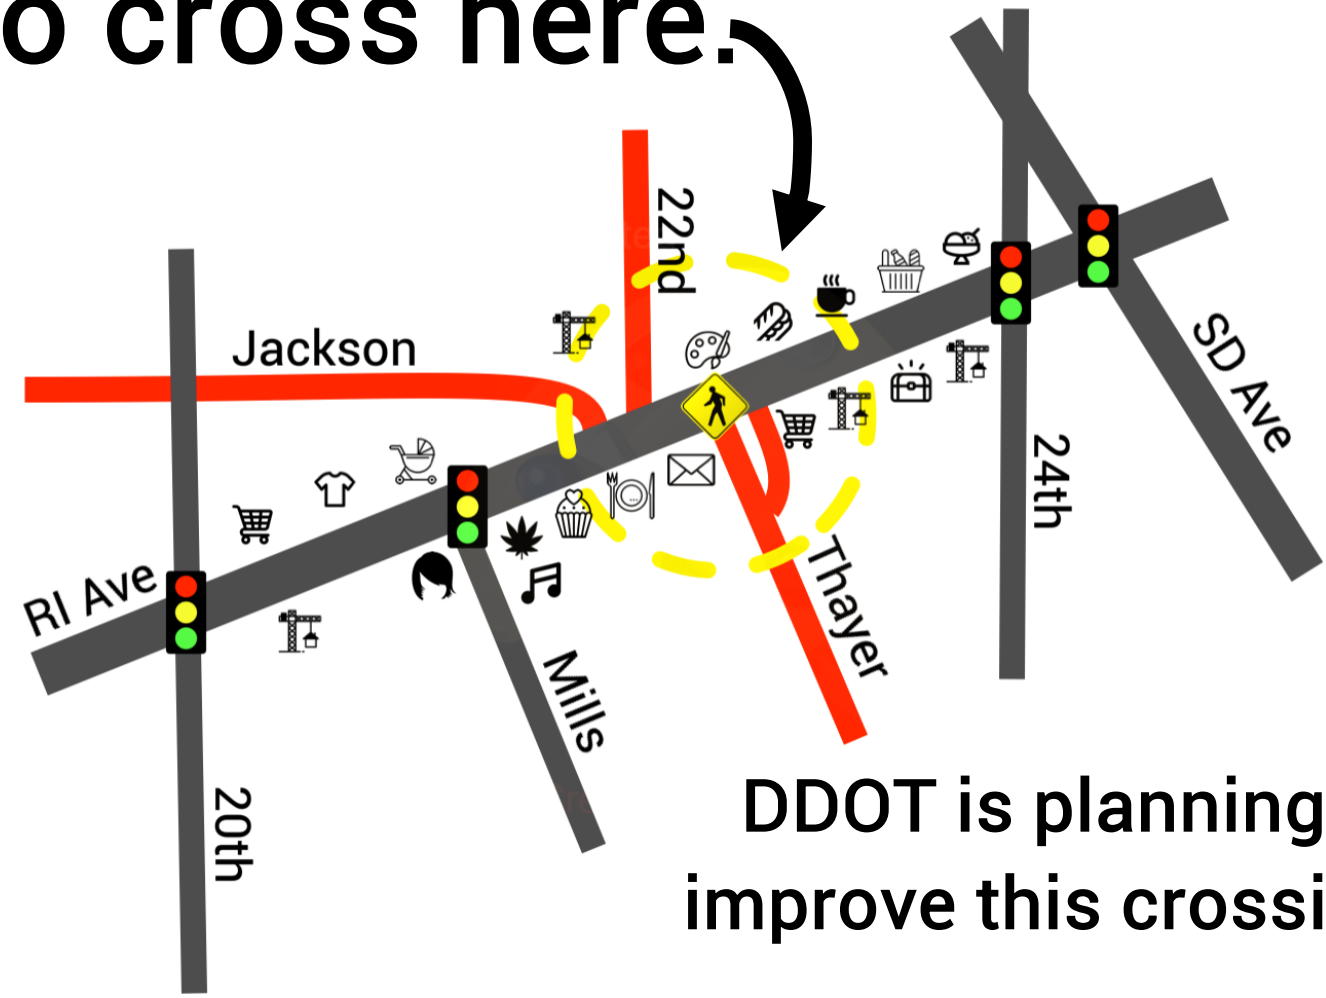
It should be safe to cross here.



DDOT is planning to improve this crossing

DDOT is designing a “HAWK signal,” but hasn't said:

- why it won't be a full traffic signal as requested
- if they will consider nearby intersections (in red)
- if they will improve the safety of the crosswalk itself

DDOT will only explain more at a (virtual) meeting on December 20th (7pm); please attend if you can help!
